KNOW WHAT IS REQUIRED ESTABLISHING MEDICARE COMPLIANCE FROM THE START

Over the past couple of months we have been featuring articles on Medicare compliance through daily documentation. It is just as important to make sure your initial intake procedures and documentation meet the set requirements.

According to an article by the American Chiropractic Association, "CMS states that the following requirements MUST be included in your patient chart notes to describe the presenting complaint. After completing your case history with the patient, you should be able to ask yourself the questions below and answer them with your documentation."

Ask Yourself	Requirement
Why is patient seeking treatment?	Symptoms causing the patient to seek treatment
How did the condition/injury happen? Gradual/Sudden?	Mechanism of onset
Do my notes paint a picture of the patient's symptoms including specific remarks that would allow a third party reader to fully understand this complaint?	Quality and character of symptoms/problems onset, duration, intensity, frequency, location, and radiation of symptoms.
What causes the condition to improve or worsen?	Aggravating or relieving factors.
What has been tried in the past and are there any complicating factors?	Prior interventions, treatments, medications, secondary complaint
Are there any factors in the family history that relate to this condition?	Family history, if relevant.
What aspects of the patient's health history factor into this current condition?	Past health history (general health, prior illness, injuries, hospitalizations, medication, surgical history)

The Document Plus **Health Questionnaire (HQ3)** and **Clinical Evaluation (CE3)** forms are a great way to ensure that you are asking the right questions and documenting the required information. Please see the article below outlining the advantages of using the newer CE3 form. If you have further questions or wish to discuss options specific to your practice please contact our Training Department at **800-642-0600**.

CLINICAL EVALUATION 3 (CE3 FORM)

The CE3 form is our most comprehensive Clinical Evaluation form.

Sections on this form include: "Physical Exam.", "Posture Exam.", "Neurological Assessment", "Orthopedic Exam Of the Spine", "Spinal Exam", "Extremity Evaluation", "Assessment", and "Plan - Recommended Management".

Some advantages of using this form are outlined below.

- Bubbles to indicate whether the exam is an initial or re-evaluation
- Customizable extremities section
- Expanded list of diagnosis codes
- The ability to prioritize diagnoses (Primary, Secondary, Other)
- Extensive Plan and Recommended Management section that includes Goals, Objectives, and Prognosis

TESTIMONIALS

"I've been using Document Plus in my office for 6 years. It is unquestionably one of the best things I have done in my practice. It has been the catalyst for our practice becoming more streamlined and has been directly responsible for a significant reduction in human error and employee man hours. I highly recommend it."

- Dr. John S. Parker

The Document Plus EMR system made it easier when 50 new patients were referred to my office from a pain clinic in a single day. Thanks to your system and the quality of reports we send out, patients, attorneys, and medical doctors all refer.

- Dr. Royce Jones Gadsden, AL

NOTE: With Document Plus you can generate clinically correct, professionally formatted narratives to physicians, insurance companies, and attorneys. There is a great chance that you will begin to receive referrals from sending out these reports.
